

FOR IMMEDIATE RELEASE

Tecastic CMS Approved for Compatibility with the Amazon Signage Stick

Baltimore, MD — December 02, 2025— Tecastic, Inc. announced that its cloud-based digital signage content management system (CMS) has been **approved for compatibility with the [Amazon Signage Stick](#)** and listed in the **Amazon Signage CMS Providers Directory**.

This approval marks a significant milestone for Tecastic, underscoring its commitment to delivering a seamless, reliable, and affordable signage solution for schools, churches, and businesses. Tecastic CMS works effortlessly with the Amazon Signage Stick, allowing users to deploy professional-grade digital displays within minutes—no technical expertise required.

“Our CMS being approved for the Amazon Signage Stick reflects our focus on simplicity, speed, and accessibility,” said **Ryan Doak**, Founder and CEO of Tecastic. “This advancement allows schools and organizations to communicate important messages, events, and safety information quickly and effectively.”

The Amazon Signage Stick offers:

- **Affordable professional signage** – premier signage performance accessible for a wide range of businesses and applications.
- **Seamless content management software integration** – works out-of-the-box with Tecastic (separate CMS subscription required).
- **Designed for digital signage** – auto-launches content in kiosk mode for unattended operation and maximum uptime.
- **Easy set up** – connect to Tecastic in minutes.
- **Amazon Signage mobile app** – enables faster setup and centralized monitoring.
- **Powerful performance** – quad-core SoC, 4K playback, and Wi-Fi 6E.
- **Engineered with security in mind** – includes secure boot loader, encryption, and regular updates.
- **Built to scale** – one Signage Stick per screen for effortless expansion.
- **Conveniently available** – [order through Amazon and Amazon Business](#).

Organizations can sign up for the **Tecastic CMS** at <https://portal.tecastic.com/signup> or learn more at www.tecastic.com.
